FIGHT THE NEW OFF-PAYROLL (IR35) TAX

The contracting sector has less than a year to prevent disastrous change to IR35 that would end flexible working as we know it. Our campaigning efforts have helped delay Government's plans to extend the Off-Payroll rules to the private sector until 2020. But, to put an end to Off-Payroll altogether, we need your help.

Key Timeline : Off Payroll (IR35) in the private sector

Government's intention to extend Off-Payroll to the private sector was confirmed in the 2018 Autumn Statement; but we can prevent it. Our readerships' lobbying has been pivotal to our campaign's success so far, but over the coming months we need your backing more than ever.

We Need Funding £££

To prevent HMRC's mistrusts from causing further devastating change, we need funding, immediately. Please donate what you can to support our investigative work and help us expose the truth.

Spread the Word

Please present the facts to your MP, and share our campaign with others who are likely to suffer as a result of the Off-Payroll rules.
